

Free Range Layer Pellets

Free Range Layer Pellets contain 17% protein and are made from only the best natural ingredients, sourced from quality assured growers within the West Australian wheatbelt. These pellets contain vitamins and minerals and are formulated to increase egg production and egg quality. The pellets provide a balanced diet and can be used as a valuable supplement to backyard and free-ranging chickens.

NUTRITIONAL ANALYSIS

Nutrients	Dry matter
Crude Protein (min)	17%
Metabolisable Energy (min) 2600	Kcal/kg
Phosphorus	0.56%
Added Salt (max)	0.28%
Calcium (min)	3.52%
Digestibility	90%
Sodium	0.16%

FEEDING GUIDE

Ad lib from 16 weeks of age in troughs or self-feeders. Feed as a complete diet or to supplement free-ranging.

Ensure good quality fresh, clean, cool water is available at all times.

Store in cool dry place

Best used within 12 months.

INGREDIENTS

The pellets will contain one or more of the following ingredients depending on seasonal conditions: wheat, lupins, barley, cereal by-products and oats, as well as calcium, di-calcium phosphorus, meat meal, vegetable protein, salt, crystalline, amino acids, and a vitamin mineral premix.
