

Equine OptiLick

High performance mineral supplement

Equine OptiLick

High performance mineral supplement

OptiLick is formulated as a loose lick mineral and vitamin supplement specifically designed for Western Australian horses. This mix may assist in the management of dietary deficiencies related to the unique pasture, forage and hay qualities found in WA.

Advantages:

- Contains only high-quality minerals, vitamins and sustainably sourced rock salt.
- No Molasses - a cool, low sugar supplement therefore minimizing reaction from sensitive horses.
- Highly palatable, OptiLick maximizes nutritional gain and increases utilization of all available types and quality of pastures.
- Supports the microbes in the hind gut - helps improve digestion and use of dietary roughage.
- Can be fed as an additive to existing hard feed ration or as loose lick.
- Horses will self-adjust consumption - intake may be higher in summer and in periods of work/exercise.
- Encourages drinking and assists hydration.
- Can help prevent extra chewing on trees and posts causing damage to teeth, etc.
- Contains macro and micro elements - a balanced supplement specifically formulated to be fed with hay, pasture and forage grown in WA soil.
- Replaces electrolytes lost through sweat and exertion.
- Contains vitamins A, D and Biotin - known to support eyes, bones, hooves and vitamin E as an antioxidant in muscle function.

Feeding Directions:

Feed out in a well-drained trough or tub. OptiLick will repel some water but should not be allowed to sit in a pool of water. OptiLick can be mixed with daily feed if desired. Suitable for horses of all ages: working horses, foals, ponies and pregnant mares. Ensure horses have access to fresh, clean, cool water and adequate hay/pasture at all times.

Recommended daily intake:

100 – 250g per horse. Intake will vary with workload, seasonal variations and other dietary intakes.

Nutritional Content: (per kg)

Calcium	87 (g/kg)	Chromium	1.0 (mg/kg)
Phosphorus	39 (g/kg)	Selenium organic	1.0 (mg/kg)
Sodium	68 (g/kg)	Iodine	1.0 (mg/kg)
Sulphur	22 (g/kg)	Vitamin A	20 (KIU/kg)
Magnesium	19 (g/kg)	Vitamin D3	2.1 (KIU/kg)
Zinc	320 (mg/kg)	Vitamin E	220 (mg/kg)
Zinc as chelate	200 (mg/kg)	Vitamin B1	13 (mg/kg)
Iron	960 (mg/kg)	Vitamin B2	12 (mg/kg)
Iron as chelate	150 (mg/kg)	Vitamin B3	30 (mg/kg)
Manganese	320 (mg/kg)	Vitamin B5	12 (mg/kg)
Manganese as chelate	150 (mg/kg)	Vitamin B6	6.5 (mg/kg)
Copper	120 (mg/kg)	Vitamin B9 (folic acid)	6.5 (mg/kg)
Copper as chelate	80 (mg/kg)	Vitamin B12	0.066 (mg/kg)
Cobalt	2.7 (mg/kg)	Biotin	0.25 (mg/kg)
Cobalt as chelate	0.5 (mg/kg)		

Store in a cool dry place away from direct sunlight.
