

Prime Lamb Finisher Pellets

This 6mm pellet is scientifically formulated to increase performance of lambs in the feedlot with less days on feed. The premix includes an organic eubiotic which is not a medication, is organic and approved and formulated within and at high spec OVN (Optimum Vitamin Nutrition) guidelines.

Features

Nutritionally balanced ration

High Fibre

Contains a registered organic eubiotic
Contains Sodium Bicarb

Quality assured Mineral premix

Pelleted feed

Protein

No ingredient separation

Benefits

Meets the protein, energy mineral and vitamin requirements to finish prime lambs.

Reduces the risk of acidosis and maintains a healthy rumen microbiome population.

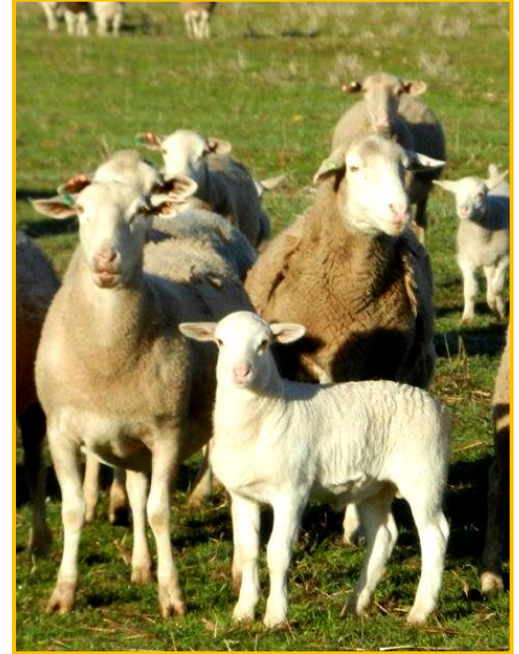

Improves feed conversion efficiency and is an organic non-medication. Assists in reducing the risk of acidosis by increasing rumen pH.

Provides essential and stable vitamins and trace minerals needed for top performance and optimum feed utilization, increased immune system and carcass quality.

Reduces dust and wastage and is easily stored in sheds, silos and bunkers.

From grains and veg/protein meal & not urea, providing required nitrogen.

Even nutrient blend received by each animal.

NUTRITIONAL ANALYSIS

Nutrients	Dry matter
Crude Protein	14.8%
Metabolisable Energy (min)	11 MJ/kg
Fibre	25%
Added Salt (max)	0.4%
Calcium (min)	2.17%
Mineral premix	2%
With Vitamins A D E	

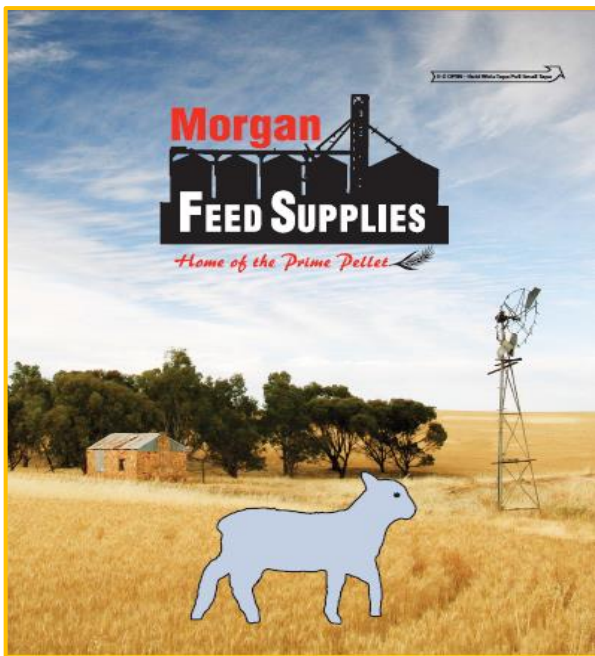

Store in cool dry place.
Best used within 6 months

INGREDIENTS

These pellets will contain one or more of the following ingredients: lupins, barley, wheat, cereal by-products and cereal straw/ hay, as well as ground limestone, salt, molasses, vitamin/trace mineral premix and an organic eubiotic.

FEEDING GUIDE: After consultation with your nutritionist Prime Lamb Finisher Pellets may be fed ad lib in troughs, self-feeders or in trails; starting at 300g per day, building up to 1 kg per day. Good quality free choice hay is recommended. Clean water is essential. Lambs will eat around 3-4% of their body weight each day, e.g. one lamb at 40 kg needs 3.5% x 40 = 1.4 kg of Prime Pellets per day. Weight gains of 300-400g of live weight per day may be expected, based on no other feed on offer.

DO NOT FEED TO HORSES OR OTHER MONOGASTRICS AS MAY BE FATAL
