

PLAIN LAKE SALT BLOCK

Salt is a critical part of a balanced diet for all livestock and other animals. This salt block will balance the sodium level necessary to the animal and can be fed out all year round. The animal will crave salt if the diet does not contain adequate levels.

Nutritional Analysis per Kg (as fed basis)

| | |
|----------------------|------|
| Salt NaCl | 95 % |
| Molasses | 4 % |
| Total Protein Equiv. | 1 % |

| Animal Class | Grams/hd/day |
|----------------|--------------|
| Sheep/Goats | 5 - 10g |
| Cattle /Horses | 50 -100g |

Feeding Directions: Ensure that animals are not starving when introduced to this product. Allow continuous access once feeding has commenced. Provide clean, fresh water at all times and place blocks near the watering points.

Safety Directions: Avoid contact with eyes and skin. Avoid breathing dust.
