

Garlic and Sulphur Block

Suitable for Sheep and Cattle

No Urea

For control of flies and other parasites.

This Garlic and Sulphur Block is designed with a high level of Sulphur + Garlic (Allicin) to help reduce fly & other parasite infestations in stock, without the need for chemical alternatives, & has been seen to repel by up to 50%. Allow 2-3 weeks to be absorbed & to take full effect. This product will aid in the reduction of weight loss & stress during hot summer conditions enabling the animals to rest in the heat of the day without the need to continuously 'cluster & circle in a mob' & will greatly improve overall production & growth.
