

HY-WEANER + BIOTIN BLOCK

8% Urea

Hy-Performance

Hy-Palatability

Hy-Calcium and Phosphorus absorption.

This block is designed to provide a source of high protein and energy for young weaned cattle. Improved micro mineral supplies will build a strong foundation for udder development and subsequent lactation in heifers. Biotin will provide hoof and hide strength and health and is a requirement for the digestion of fibre in the rumen. The Vitamin D metabolite which has proven through trials to more than double the absorption of phosphorus and calcium, will prepare the future skeletal structure and strength of the animal whilst the high protein level will promote muscle development. Phosphorus will promote the utilization of protein and energy, and growth. The Active vitamins will promote immune strength and fertility and reduce oxidative stress.

The Hy-Weaner Block is a 'soft' block and is manufactured to be eaten!

Nutritional Analysis per Kg (as fed basis)

Min. Crude Protein	28 %
Urea	8 %
Molasses	7 %
Calcium	2.5 %
Phosphorus	1.16 %
Sulphur	0.64 %
Magnesium	0.32 %
Salt NaCl	56 %
Crude Fat (EE)	1.96 %

Added micro minerals: zinc, manganese, copper, iodine, cobalt and selenium.

Added vitamins and metabolite: A, D3, E, B7 (Biotin) and 25-hydroxycholecalciferol.

Contains: sugar.

Daily Intakes per head per day:

Animal Class:

Cattle: 1 block per 15-20 head

Feeding Directions: Ensure that cattle are not starving when introduced to this product. Allow continuous access once feeding has commenced. Provide clean, fresh water at all times.

Safety Directions: Avoid contact with eyes and skin. Avoid breathing dust.

First Aid: Call Poisons Information Centre for advice 24 hrs (13 11 26) or nearest doctor at once. If contact with eyes occurs, wash out immediately with clean water.

If contact with skin or hair occurs, remove contaminated clothing and flush skin with running water.

DO NOT FEED TO HORSES AND OTHER MONOGASTRICS. THIS PRODUCT MAY BE FATAL. Keep out of reach of children. For animal treatment only.

With holding Period: Meat = Nil, Milk = Nil. Store below 30°C (Room Temp), in a dry place. Best used within 6 months.

Warning: THIS PRODUCT CONTAINS UREA – UREA CAN BE TOXIC TO LIVESTOCK & OTHER ANIMALS

*Products containing urea and other non-protein-nitrogen can be toxic to livestock causing illness and or death. Do not feed to starving, hungry or emaciated cattle and ensure that adequate fibre is always available. Livestock management and environmental conditions vary between locations and consideration of these dangers must be managed correctly. Urea supplementation should commence before animals lose weight, but effective urea supplementation can reduce rate of weight loss and promote feed efficiency, promoting animal weight gain. Effective supplementation can increase pasture or dry matter intake.

*The success of this product/supplement is dependent on other production and nutritional factors being managed correctly. Most important is the supply of energy and protein through quality feed as well as good animal husbandry.

*The use of this product after distribution or sale is beyond the control of **Morgan Feed Supplies**. Therefore, no warranty is given nor shall be implied for its suitability for any purpose. The manufacturer and their employees/contractors accept no responsibility for any consequence arising from the above-mentioned guides & product.

This product does not contain restricted animal material
