

PREMIUM CALCIUM SULPHUR MINERAL MIX

SHEEP, GOATS AND CATTLE

The Calcium, Sulphur, Vitamin and Mineral levels in the concentrate in this product are specifically designed to balance diet deficiencies found in WA feed and prevents hypercalcemia during lambing and calving and will encourage animals to utilize available stubbles and dry pasture in summer/drought.

The Vitamin and Mineral package for this product is globally recognised within Optimum Vitamin Nutrition (OVN) and is manufactured in Europe with external QA audit and full traceability.

Mix Analysis: DM 97%, Calcium (Ca) 20%, Phosphorus (P) 0.12%, Magnesium (Mg) 1.2%, Potassium (K) 0.3%, Sulphur (S) 2.8%, Salt (Na) 10%, Chlorine (Cl) 15.5%, Iron (Fe) 1836.85 ppm, Molasses 2%. Premium small ruminant micro mineral and vitamin package included, containing organic and inorganic minerals: zinc, copper, manganese, selenium, cobalt, iodine, and vitamin A, D3, E, B7 (Biotin) and 25-hydroxycholecalciferol.

Benefits: Improvement in milk production, bone growth and overall lambing and calving percentages.

Directions: Ensure that cattle and/or sheep are not starving when introduced to this product. Once feeding has commenced, allow free continuous access to the mix in troughs or drums with good drainage. Always provide access to clean, fresh, cool water.

Inclusion rate: 5% when feeding with grains.

Recommended Daily Intake: Sheep and Goats 25 - 60 gms/hd/day. Cattle 100 – 300 gms/hd/day.

Safety Directions: Avoid contact with eyes and skin. Avoid breathing dust.

First Aid: Call Poisons Information Centre for advice 24 hrs (13 11 26) or nearest doctor at once. If contact with eyes occurs, wash out immediately with clean water. If contact with skin or hair occurs, remove contaminated clothing and flush skin with running water.

DO NOT FEED TO HORSES AND OTHER MONOGASTRICS AS THIS PRODUCT MAY BE FATAL.
