

**Are you prepared for the coming roundup?**

**We can help** by providing a full range of products for all station stock.

All MFS products are manufactured and available from our Toodyay plant.

**Transport** at affordable rates or customers can share loads & backload cattle to cut costs.

## Support by Air!

**MFS** can now better support station customers from the **air**! This will ensure a quick response for customers when cattle are available in the yard and ready for **blood, faecal & STD testing**.

**Just remember**

**'You can't see what you are NOT testing for!'**

## Blood Testing:

- **Pestivirus** antibody testing.
- **Campy 'Vibriosis'** testing.
- **Tritrichomonas** foetus culture testing.
- **Macro mineral** deficiencies phos, copper, cobalt, selenium, sulphur.
- **Nutritionist & vet advice** for all MFS customers.

## Faecal and Water Testing:

**Benefits are –**

- Deficiencies and health issues would otherwise go undetected.
- Samples sent to labs and results returned within a shorter time frame.
- Improvement in decision making regarding suitable year-round supplementation.
- Improve paddock management, herd health, calving rates & profitability!
- **Access to nutritionists & vet** advice for all MFS customers.

## Cattle and Sheep:

- **HAY** - for yard feeding.
- **PELLETS** - Stockyard, Weaner, Maintenance, Finisher, Buffer and Milk Replacement.
- **SUPPLEMENTS** - Licks, blocks & feedlot concentrates.

## Horses:

- **Working horses**—pellets in bulk bags (20kg bags special order).
- **OptiMeal** — a concentrated feed conditioner to be mixed with chaff or lucerne.
- **OptiLick**—a loose lick mineral & vitamin supplement specifically designed for WA deficiencies including prevention of 'big head.'
- **Equine Gold block**—contains essential minerals, vitamins & Omega Gold® for optimum equine brain & overall general health.
