

# Milk Replacement Pellets

Suitable for Calves, Lambs and Kids up to 6 weeks

These pellets contain milk solids to provide high quality nutrients to support vigorous development of calves, lambs and kids up to 6 weeks old. They can be used as a creep feed for babies on their mothers or as a supplement to liquid milk or milk replacer when artificially reared. It is critical that all ruminant babies receive adequate colostrum (quality and quantity) in the first 6-12 hours of life to obtain vital nutrients and passive immunity from disease.

## NUTRITIONAL ANALYSIS

### Nutrients

#### Dry matter

Crude Protein (min.) 23.0 %

Met. Energy 12Mj/Kg DM
